  \* Was there a plan for on the job site support needs as necessary?

\* Was there a plan for off the job support needs as appropriate? Comments:\_\_\_\_ Needs Improvement Competent Quality 9. Was it worth it to the client to work with VR? 1 2 3 4 5 Quality Indicators: \* What did they gain? \* The job outcome is valued by the client? \* What would they say if we asked them? \* Would the client be employed in this job today without the help from VR? Comments:\_\_\_\_\_ Needs Improvement Competent Quality 10. Did we (or are we) using VR funds responsibly? 1 2 3 4 5 Quality Indicators: \* Was there a search for comparable benefits? \* Did we ask the client to contribute? \* Did we search to find the most cost efficient vendor? \* Was there a discussion on how the client might assume costs in the future? (For example, if we are paying for gas or car repair how the client will cover in the future.) Comments:

#### **INSTRUCTIONS**

Circle the appropriate number. (Not all questions will be relevant to the case being reviewed.)

Review the entire case file. Then meet with the appropriate staff involved in the case. Rating can be done after case file review and revised as needed after the discussion with staff or can be delayed until after discussion with staff.

Bulleted items are are meant to help rate the overall question. They are included to give the reviewer some ideas on what they might be looking for. The intent is not to rate a person based on any specific bulleted item. The reviewer may well consider other things in determining how to answer the question posed.

<u>Quality Indicators</u> are signs or flags that a reviewer might observe that are indications that the Quality Standard is being met. The lists of Indicators are NOT all-inclusive.

#### **RATING SCALE:**

#### Quality

- ∞ The specialist's performance on this quality standard was excellent.
- The foundational data and/or specialist documentation required to rate this quality standard was clear, concise and complete, leaving the reviewer with a thorough understanding of how and why decisions were made.

#### Competent

- ∞ The specialist's performance on this quality standard was acceptable.
- Some of the foundational data and/or specialist documentation required to rate this quality standard was good, leaving the reviewer with an adequate understanding as to how or why decisions were made.

#### **Needs improvement**

- ∞ The specialist's performance on this quality standard was less than acceptable.
- The foundational data and/or specialist documentation required to rate this quality standard was weak (many pieces incomplete, inaccurate, outdated) or missing entirely, and leaves the reviewer with minimal or no understanding about how or why decisions were made.
